## **WHY ARE WE FIGHTING?**

We live in a patriarchy. This means that FLINTA\* people are oppressed and have fewer rights. Patriarchy also means that most countries in the world are ruled by cis-men. This means that cis-men make the most important political decisions. Often, cis-men do not care about the problems and rights of FLINTA\*. Some cis-men even want to take away rights from FLINTA\*. We want to resist this.

Today, FLINTA\* people have more rights than before. However, FLINTA\* still face a lot of violence. Violence against FLINTA\* has been increasing lately. Some people think that FLINTA\* are only there to have children. Because of this, FLINTA\* still do most of the household work. Household work includes things like cooking and child-raising.

We want FLINTA\* to decide for themselves when and if they want to have children. We want no more violence against FLINTA\*. We also want FLINTA\* not to be the ones who do all the household work alone. FLINTA\* also want to make important political decisions and live autonomously!

We are fighting for the liberation of FLINTA\*. When we all go to the streets together, we are strong and loud!

## SHORT FEMINIST GLOSSARY

**Feminist** means: There is justice between FLINTA\* people and cis-men.

**FLINTA\***: Is a collective term. FLINTA\* refers to all people who are women, lesbians, inter\*, non-binary, trans\*, and agender. So, all people who are not cis-men and thus suffer under patriarchy.

**Patriarchy**: Is a system of rule. It means that cis-men make important decisions and govern. We want everyone to rule and shape things. This justice is not yet everywhere. We are against patriarchy. We want to live freely with each other.

**Cis-gender** means: A person has a gender since birth. For example: A person is born a girl and feels like a girl. Then this person is a cis-girl. This means: The biological sex and the gender identity are the same.
